

## WELCOMES GOOD WEATHER

Sackcloth and Ashes Laid  
Aside for Season of Joy  
and Gladness.

### GOOD WEATHER PROMISED

Movable Feast Comes Earlier This  
Year and Furs May Be  
Needed.

The world has swung away its winter garment of repentance, and stands forth today in drapery of new bloom, symbolic of the reawakening of the spirit to the quickening beauties of Easter.

Washington, subdued for the forty days in the sackcloth and ashes of contrition, puts on its gladness with rather a touch of surprise, because the Day of Resurrection, the most joyous of all Christian holidays, seems to have thrown time out of joint.

This movable feast, celebrated most often amid the warmth of April sun, the fragrance of blooming flowers, and the songs of mating birds, has come to stand for the appearance of refreshed nature, as well as the freeing of religion from its penitential bonds. Coming thus early, when the vernal equinox is only two days passed, Easter appears almost shiveringly to welcome penitential humankind forth from its annual mortifying of the flesh.

### Elements Are Releiving.

Elements, as the weather's components used to be called, are promised to relent somewhat, however, from their forecast intention to make Easter gowns and bonnets inexpedient costumes for today, and the Washingtonians who have remained at home are informed that no rain is expected till toward night. Temperatures will be almost disappointingly low, it is prophesied, so that real spring gowns will have to be reinforced with the furs that usually are heating places for the inert but pungent mothball.

### PLANS FOR ALASKA.

Senator Pittman Would Lease the  
Coal Fields.

Government ownership and operation of railroads in Alaska, combined with private lease and development of coal fields there, is the plan advanced yesterday by Senator Pittman, chairman of the Senate Territories Committee. Senator Pittman declared, is required to prevent monopolization and to safeguard competition in the working of the natural resources of the Territory.

### PLAN FISH PROTECTION.

Ambassador Bryce Calls on Presi-  
dent Concerning Treaty.

Immediate Congressional action looking toward the protection of American fish in the border waters between the United States and Canada was urged on President Wilson yesterday by Ambassador Bryce, of Great Britain, and Minister of Marine and Fisheries, Hazen, of Canada.

### Train Loads of Seeds.

The first of 3,000 packages of free seeds clogged the mail train running out of Washington yesterday. Each member of Congress, who was a member at the last session, is entitled to send out 2,000 packages of seeds to his constituents. Clerks and secretaries were busy sorting out packages of seeds and packing them in mail bags for free transmission through the mails.

### MARRIAGE LICENSES.

William G. Kinsman, 25, and Hazel P. Verlander, 22, Rev. F. B. Rowden.  
James L. Nalley, 23, and E. Harriet Riter, 21, Rev. C. F. Wiley.  
Benjamin F. McKee, 25, and Eugenia G. Kasse, 22, Rev. A. S. Mowbray.

### DEATH RECORD.

William Melvin, 21, 210 1/2 St. N. W., Elizabeth L. Larr, 65, 613 St. N. W., Eliza W. Berry, 70, 20th St. and Blunk Hill Road.  
Kila Dalton, 72, National Homeopathic Hospital, Elmer Maran, 22, 217 St. N. W., Charles E. Kinsman, 25, 210 1/2 St. N. W., Arthur Shelby, 25, Tuberculosis Hospital, Joseph H. Calder, 30, 1001 Hospital House, James H. W. 25, 1001 R. I. Ave. N. W., Mary Voorhes, 20, Columbia Hospital, Louise Pomeroy, 21, 120 Belmont St. N. W., Charles Callahan, 21, 120 Belmont St. N. W., Leonard R. Aldridge, 30, 1001 Hospital House, John Fulton, 25, 1001 Hospital House, Maria J. Beckwith, 21, 1001 Hospital House, Charles F. Manchester, 30, 1001 Hospital House, Cecilia Fowler, 21, 1001 Hospital House.

## HID \$18,000 IN COSSAGE.

MISS LOUISE MUSICA.

In whose costume was found \$18,000 when she was arrested with her father, Antonio Musica, her three brothers, and her sister at New Orleans. Altogether, the party had more than \$20,000 cash in their possession. The family is charged with having swindled a number of American and European banks.

### PLANS FOR MAKING CAPITAL HORSE MARKET

Melvin C. Hazen Has Scheme to  
Hold Sales Here  
Regularly.

Melvin C. Hazen, surveyor for the District, who has been made manager of the year's National Capital Horse Show, which is to be held May 3, 4, 5, and 6, plans to make Washington the center of the American thoroughbred horse trade.

In connection with his plans for the coming season, which he intends shall be the largest and most representative horse show ever held in the Capital, Mr. Hazen is working on plans for making the Capital the center on which will focus the showing and selling of the nation's best blooded stock.

### PURSES LOST WHILE ON SHOPPING TOURS

Mrs. P. J. Drury Robbed of Pocket-  
book Containing \$400 Worth  
of Jewelry.

Mrs. P. J. Drury, of 112 Harvard Street Northwest, wife of a liquor dealer, was robbed in Center Market yesterday morning of a purse containing jewelry worth more than \$400. The pickpocket escaped before Mrs. Drury discovered her loss, and no trace of the thief has been found.

### PLAN FISH PROTECTION.

Ambassador Bryce Calls on Presi-  
dent Concerning Treaty.

Immediate Congressional action looking toward the protection of American fish in the border waters between the United States and Canada was urged on President Wilson yesterday by Ambassador Bryce, of Great Britain, and Minister of Marine and Fisheries, Hazen, of Canada.

### Train Loads of Seeds.

The first of 3,000 packages of free seeds clogged the mail train running out of Washington yesterday. Each member of Congress, who was a member at the last session, is entitled to send out 2,000 packages of seeds to his constituents. Clerks and secretaries were busy sorting out packages of seeds and packing them in mail bags for free transmission through the mails.

### MARRIAGE LICENSES.

William G. Kinsman, 25, and Hazel P. Verlander, 22, Rev. F. B. Rowden.  
James L. Nalley, 23, and E. Harriet Riter, 21, Rev. C. F. Wiley.  
Benjamin F. McKee, 25, and Eugenia G. Kasse, 22, Rev. A. S. Mowbray.

### DEATH RECORD.

William Melvin, 21, 210 1/2 St. N. W., Elizabeth L. Larr, 65, 613 St. N. W., Eliza W. Berry, 70, 20th St. and Blunk Hill Road.  
Kila Dalton, 72, National Homeopathic Hospital, Elmer Maran, 22, 217 St. N. W., Charles E. Kinsman, 25, 210 1/2 St. N. W., Arthur Shelby, 25, Tuberculosis Hospital, Joseph H. Calder, 30, 1001 Hospital House, James H. W. 25, 1001 R. I. Ave. N. W., Mary Voorhes, 20, Columbia Hospital, Louise Pomeroy, 21, 120 Belmont St. N. W., Charles Callahan, 21, 120 Belmont St. N. Manchester, 30, 1001 Hospital House, Cecilia Fowler, 21, 1001 Hospital House.

## PREVENTIVE MEASLES

Continued from Page One.

were kept from school from six weeks to two months on account of measles. Leaving out of consideration the death and suffering which was produced in this way, this is a serious economic loss.

Measles is a frequent accompaniment of war, for any other occasion which brings large numbers of persons together under unhygienic conditions. In 1903 there were 20,000 cases with 1,000 deaths from measles in the Confederate army. It is reported that during the Spanish-Portuguese war an epidemic of measles swept off nearly a fifth of the Portuguese army in three months.

It is seen that measles is many times a very severe disease, one which cannot be dealt with lightly, one to which we should not expose our children," says one of the surgeons of the Health Service. A child with measles should be put to bed and kept there as long as he has any fever or cough. The room should be airy, but it should be darkened, because children with measles are very sensitive to light. The bedclothes should be light, because the child is apt to get too warm, kick off the covers, and suffer from the cold. A chilling in this way may predispose to pneumonia. Food should be light and should consist chiefly of nutritious broths, pasteurized milk, soft-boiled eggs, and like. Ice lemonade will bring comfort to the inflamed throat. The child's eyes should be kept clean, and should the fever get high the comfort of the little sufferer may be increased by sponging with tepid water and alcohol. Sometimes it is necessary to put an ice bag to the head, but if the child is sick enough to require this, skilled assistance should be summoned.

### Transmission of Disease.

"When the fever and cough have gone the child may be allowed to be put up and about the house, but it should not indulge in violent exercise, because there is often some weakening of the heart muscle by the disease. The aim is to allow the heart muscle to recover its normal power, and to prevent too much strain upon it. The diet should be increased when the fever has gone away, and should include good, plain, strong foods. If there is a tendency to vomit, they should be given in small quantities. If the child prefers cod-liver oil, this may be substituted.

"The important point about the prevention of the disease is the fact that, judging from the experiments, measles is not transmissible after the fever has gone down. Experimenting with monkeys they found that the disease could be transmitted from monkey to monkey after the stage of fever had passed. It used to be thought that the germs of measles were in the scales of skin which were shed at the close of the disease.

"It is thought by some that there may be chronic carriers of measles, but this is not at all proven. It is also believed that a discharging sore on the mouth may be the means of continuing the transmission of the disease. This is not proven. There are on record a large number of instances of a high fever in the throat, but the disease is not transmitted. A third person may carry the infection from the sick to the well. Transmission of measles to human beings by the lower animals is still unproven.

"It is not still known what the cause of measles is. A great many scientists have described germs which they believe to be the causal agents, but up to the present no one has been able to prove as the cause of measles. We do, however, know that the infection of measles is found in the secretions from the nose and throat during the first stages of the disease, and that persons suffering with measles should not be allowed to come in contact with well persons until the period of fever has well passed.

### Spread by Sputum.

"Since the disease is known to be spread by the sputum, the prime measure in the prevention of this disease is to prevent the sputum from the sick being taken into the system of well persons. Children with measles should be provided with a quantity of paper napkins, and as soon as the napkins become soiled they should be burned. Children should be taught that they must always hold a handkerchief in front of the mouth when they are coughing or sneezing, and that they should throw away the handkerchief as soon as they have used it. This is a measure which tends to control the spread of a good many diseases besides measles, because during coughing and sneezing sputum may be thrown several yards. Every child which has come in contact with measles patients should be sterilized before it is allowed to come in contact with other people, and of other people, before it is handled or used by other people. Bedclothes, napkins, table linen, towels, and the like may be sterilized by boiling.

"When it is known that measles exists in a community, no child having a bad cough should be allowed to come in contact with other children during the first three or four days of the cough.

"It is little less than criminal to permit children known to have measles to come in contact with well children. To this connection it may be remarked that while it is generally considered that one attack of measles confers immunity, there are many cases on record of a second and third attack. It is true that the second attacks are usually very mild, but too great reliance should not be placed on this immunity.

"Children should be discouraged as far as possible from playing in places which will permit of an interchange of nasal or mouth secretions. It is the duty of every parent having measles in the home to see to it that it is reported to the public health authorities. It is equally the duty of parents to see to it that their children do not come in contact with well children during the time when the infection is being transmitted. Measles kills more people in the United States every year than smallpox. You can't kill a child any easier with smallpox than you can with measles. It is the duty of private citizens and municipalities to take every known measure for the prevention of the spread of this disease."

### Signal System for Southern.

Work will be begun at an early date on the installation of automatic electric block signals on the Southern Railway between Alexandria and Orange, Va., according to an announcement made by President Finley. This system will connect with the automatic blocking system of the Washington Terminal Company, so that the entire line from Washington to Orange, Va., will be operated under automatic electric block signals.

### Former Secretary to Be Honored.

George von L. Meyer, former Secretary of the Navy, will be presented with a handsome silver centerpiece, a tribute of esteem from officers of the navy and members of the Navy League, the Naval Academy Alumni Association, and the Navy Historical Society, when he is in this city next week from Florida on his way to Massachusetts.

### Shoes for the Army.

Enlisted men of the United States Army can purchase army shoes made under United States government inspection, at half price, or about \$2.50. Members of the State Militia throughout the Union are eligible to secure footwear on the same terms.

## TALKS OF MONEY RAISED.

## NEW CAPITAL RESIDENT BOUGHT FARMER'S COW

Purchaser Led Animal Into White  
House Grounds to Graze on  
Green Lawn.

### DEMOCRATIC DAYS THEN.

Jeffersonian simplicity and democratic ways are much discussed these days in drawing-rooms, and the other night one of the older inhabitants at the Capital, who has a residence in the Northwest, spoke of that subject, and referred to an incident which occurred here some time ago.

A Westerner, who had been appointed to an office in Washington, was fond of strolling about the city by himself and thus learning in an intimate way the lay of the land about his adopted city.

One day, while in the outskirts of Georgetown, he encountered an old farmer leading a cow to a barn. The Westerner liked the looks of the cow exceedingly, and stopped to speak to its owner. "Give much milk?" he asked, briefly.

"Nuff to feed all Brigham Young's families," replied the farmer, with equal brevity.

The answer being satisfactory, the Westerner continued: "Want to sell her?" "Sure; if you give me nuff for her."

After some haggling, the matter was settled, the Westerner bargaining that the farmer lead the cow to the White House, and so the small procession started toward Washington, the old farmer leading the cow by a rope and discussing the condition of "crops" with the Westerner. In so doing, the Westerner pointed to a well-kept lawn, the pasture of which looked exceedingly good to the cow. "Can you herd there, No, on a second's thought, you'd better let me lead her. Some peering fool banging about might forbid you in there with the cow."

The farmer, who had been in deep conversation and not noticed the direction in which they were walking, and he glanced about him.

"Why, this here's the White House!" "Course they won't let me in."

"Just give me the rope and I'll tie the cow over there," continued the Westerner.

The farmer stared fixedly at his companion. "Who you, and what right have you to keep a cow on this land?"

"Oh, I live here," was the composed reply.

"Slowly a little light dawned upon the farmer. "Will you please?" Noted William Henry Harrison.

### President Is Invited.

Chief Executive and Other Officials  
Wanted at Peace Congress.

President Wilson has been invited to attend the fourth American Peace Congress, which is to be held in St. Louis May 1, 2, and 3. Leaders in Washington of the peace movement and many diplomats are expected to be present.

Although the programme for the congress is yet tentative, it is announced that John Barrett, director of the Pan-American Union, will speak on "Pan America and Peace." Arthur Call, executive director of the American Peace Society, will address the congress on the "Promotion of International Peace." P. P. Claxton, Commissioner of Education, and Benjamin F. Trueblood, secretary of the American Peace Society, also will deliver addresses.

### HILDA Y. JOHNSTON BURIED.

Services Are Held at St. Thomas  
Episcopal Church.

Funeral services for little Hilda Yvonne Johnston, daughter of Mrs. Carrie Lee Johnston, were held yesterday from her home, 185 Oregon Avenue, at 2 o'clock in the afternoon. Rev. C. Herbert Reese, pastor of St. Thomas Episcopal Church, conducted the services.

Carl Croeland, Wladimir Brown, Henry W. Sampson, Carl W. Art, James E. Downing, and George M. Croeland were the pallbearers. Many beautiful floral tributes were received from friends. The interment was in Congressional Cemetery.

### WEATHER CONDITIONS.

U. S. Dept. of Agriculture, Weather Bureau.  
Washington, March 22, 1913.

The second storm which passed over the Great Lakes and the St. Lawrence Valley Friday has now disappeared into the west and has followed by a cold wave over the entire half of the country and lower temperatures in the Atlantic States. The temperature, however, is rising generally throughout the Middle and Western States in advance of a disturbance which is moving eastward across the Rockies. This disturbance has not reached the coast, but is increasing in force on the eastern slope and across the Missouri Valley to the Missouri River.

The storm now in the far West will steadily move eastward, causing during Sunday general precipitation in the Rocky Mountain States, and in the Pacific States, the Western and Central Lake region, extending thence southward to the Gulf of Mexico, and in the Atlantic States Sunday night and Monday.

The temperature will rise as usual as the storm advances and fall again in its rear.
